ANURAG VISHWAKARMA

CSE Student & Builder — Bhopal, Madhya Pradesh, India
anurag.build.official@gmail.com • linkedin.com/in/anurag-v1241 • github.com/build-with-anurag • anurag-web-portfolio.vercel.app

Summary

Diploma CSE student at S.V. Polytechnic College, Bhopal who builds web products end to end. Shipped Krishi Setu — a 36-page agricultural marketplace prototype, live on the web — with Next.js and TypeScript. Self-taught in depth beyond the syllabus: Linux internals (Arch Linux installed from scratch), Android custom ROMs, and how large language models actually work — transformer architecture, self-attention and embeddings.

Projects

Krishi Setu — Agricultural Marketplace (Live Prototype) | Next.js 15, TypeScript
Live: krishi-setu-lovat.vercel.app • Code: github.com/itsanuragv/krishi-setu

- Built for Smart India Hackathon 2026 with team Krishi Mitra; 36 pages, frontend complete with a mocked API layer.
- Escrow-style payment release through a 4-digit handover PIN; OpenCV-based produce quality pre-check; a 5-factor farmer–buyer match score.
- Hyperlocal discovery under 25 km and a Hindi/English, voice-assisted interface designed for low-literacy users.

Personal Portfolio — anurag-web-portfolio.vercel.app | Next.js, GSAP, SCSS

- Designed and built from studying award-style portfolio references; pinned scroll-choreographed hero, physics-based interactive tech-stack, custom cursor.
- Performance-tuned: WebP media, capped preloader, zero layout shift.

Daily Tech-Brief Automation | Python, AI agents

- A personal pipeline that researches the day's tech news and delivers a written briefing plus Hindi audio every morning; running daily since September 2026.

ShopMart — Practice Storefront | HTML, CSS, JavaScript

- An e-commerce storefront built while learning front-end fundamentals by building.

Experience

Generative AI Intern — SGSU (Summer Internship-I) | 4 weeks, 2026

- Completed a 4-week internship focused on Generative AI; in parallel, self-completed a LinkedIn Learning course on Generative AI.
- Explained concepts to classmates after the lecturer's sessions — peer teaching became a regular part of the internship.
- Produced "Generative AI: A Complete Beginner's Guide", a 30-page guide written during the internship.

Technical Skills

Languages: C, Python, TypeScript, JavaScript
Web: Next.js, React, HTML/CSS, SCSS
Systems & Tools: Git & GitHub, VS Code, Linux (Fedora, Arch — installed from scratch), Android custom ROMs, Google Antigravity (AI-assisted development)
AI: LLM fundamentals — transformers, self-attention, tokenisation, embeddings, inference; prompt engineering; AI agent workflows

Education

Diploma in Computer Science & Engineering — S.V. Polytechnic College, Bhopal | 2025–2028 (expected); currently in 3rd semester
Class X | 2025 — 82.2%

Certifications

Generative AI course — LinkedIn Learning (2026)
